

VANIER COLLEGE STUDENTS' ASSOCIATION

May 2020

To my fellow colleagues of the VCSA Executive Council,

Let me begin by wishing you all a great day and end to this academic semester. I'd like to take the time to congratulate the former Community Coordinator 1, newly appointed Vice President of the VCSA. I am confident in his ability to hold this position and wish him success in this exciting new role. I would also like to extend a sincere appreciation and gratitude to each of you for appointing me as President of the VCSA. I am honoured to hold such an esteemed position and hope that in this endeavour I may assist in fostering mutually valued relationships between colleagues.

It is my greatest intention to remain an ardent advocate for efficacious and satisfying communication between Executives. Should any of you ever have any concerns or criticism, I implore you to reach out and contact either myself or the Vice President. We are both here to support you and help make your time on the Executive Council both delightful and gratifying. I pledge to you all my commitment in executing the mandate of my new position in a manner that promotes an encouraging source for you all to derive support from.

In these last few challenging months, with the world inundated by uncertainty and change to new realities, you have all distinguished yourselves in your respective roles. Thank you all for your unwavering dedication and commitment to accomplishing your responsibilities amid these turbulent times; although it may sometimes fall unremarked, your contribution to the Vanier College Community is appreciated and valued.

On a final note, I wish to remind each Executive of the weight our voices and actions have in the overall affairs of the Association and of the College at large. We are given the opportunity to contribute to the betterment of each member of the Association's success in their time at Vanier. Let us continue functioning as a collective unit, set on achieving common goals. I end this letter by sharing with you the words of American philosopher and psychologist, William James, "Act as if what you do makes a difference. It does."

Thank you all for your trust and support.

Sincerely,

Kareem Brochu

President, Vanier College Students' Association
